Attention: Mr. A. R. McPherson, Jr.  
President

Gentlemen:

This letter relates to the discussion Mr. Foster of this office held with Mr. William P. Colson at the conclusion of the recent inspection. In particular, Mr. Colson was informed that certain of your licensed activities appeared to be in non-compliance with AEC requirements. These items and references to the pertinent requirements are listed in Paragraph 5 of the attached Form AEC-592.

The purpose of this letter is to give you an opportunity to advise us in writing of your position concerning these items and of any corrective steps you have taken or plan to take with respect to each. The date that all corrective action has been or will be completed should be included. Your reply should be sent to us within 20 days of the date of this letter to assure that it will receive proper attention in our further evaluation of the matter.

Should you have any questions concerning this matter, you may communicate directly with this office.

Sincerely yours,

Roy C. Hageman, Director  
Region III  
Division of Compliance

**5 The following activities under your license (identified in Item No. 3 above) appear to be in noncompliance with AEC regulations or license requirements, as indicated.**

**A. Contrary to 10 CFR 20.105(b)(2), radiation levels exist in the stockpile and barrel storage areas, an unrestricted area, such that an individual continuously present in the area could receive a dose in excess of 100 millirems in any seven days. The stockpile and barrel storage areas must be considered an unrestricted area due to the ease of access through open windows of the production building, space under the locked gate, and the partially collapsed portions of the cyclone fence enclosing these areas.**

**B. Contrary to 10 CFR 20.203(b), signs bearing the radiation caution symbol and the words 'Caution or Danger - Radiation Area' were not conspicuously posted at locations around the stockpile area where radiation levels were such that a major portion of the body could receive in any five consecutive days a dose in excess of 100 millirems.**
